

## Battleships 2

For the future release of our best selling game “Battleships”, the following changes have been made to game’s specification,

A new type of ship has been added:

Submarine - 5 spaces, as follows:

In addition, a submarine can also be submerged, and thus be placed on the grid **under** any other type of surface ship.

Finally, the unit called “Battleship” has been renamed to “Cruiser”.

Modify the implementation of the game, in order to accommodate these changes.
